A day in the life of Ahmad from Palestine

Meet Ahmad Alnajjar, aged 12.

He lives in a refugee camp in Jenin (West Bank)
with his four siblings, parents and Siti
(grandmother).

3:30am

Sharing with Siti

Ahmad shares his bedroom with Siti (his grandma), as their flat only has two bedrooms. As usual, Ahmad stirs slightly in his sleep as he hears her performing her tahajjud (the night prayer). Ahmad catches her praying against the **occupiers and oppressors**.

Siti was orphaned in 1948 when her parents were butchered in the Deir Yassin massacre as part of the Nakba. She was only 6 years old.

The Nakba

☞ What year was the Nakba?

- Zionist gangs uprooted 60% of the Palestinian people (800,000 out of 1.4m)
- 530 out of 580 Palestinian villages destroyed
- 34 massacres, killing 15,000 Palestinians
- **By the time ceasefire was announced, Israelis had occupied 78% of Palestine**

WHAT WAS PROMISED

***Dec 1948:** UN passed Resolution 194. Refugees wishing to return to their homes should be permitted to do so at the earliest practical date & compensation should be paid.*

WHAT ACTUALLY HAPPENED

***Law of Return 1950:** The resolution was **totally ignored by the Israelis** and instead they granted automatic rights of citizenship of Israel to all Jews in the world.*

The Nakba 1948

Deir Yassin Massacre

April 1948

- Friday 9th April at 4:30am: Zionists surrounded Deir Yassin and butchered men, women and children along with raping women
- News spread to other villages and was also exaggerated to frighten the Palestinians. The trick worked and thousands of Palestinians began to flee for their lives, **never to return**
- Deir Yassin is now an Israeli village: cemetery and mosques were destroyed

250
murdered!

*25 pregnant women
whose bellies were cut
open and unborn
children murdered.*

*52 innocent children were
slaughtered in front of
their mothers, with their
heads chopped off.*

4:15am

Leaving for work

Ahmad then hears his brother Esam getting ready to leave for work. To make it in time for his 7:30 am start, his brother must leave now as he has a checkpoint to cross.

His brother is lucky - more than 30% of Palestinians in the West Bank are unemployed.

The checkpoints await his brother...

- There are 593 checkpoints within the West Bank
- At checkpoints: overcrowding, physical inspections, injuries & harassment
- 70,000 Palestinians with Israeli work permits make the daily commute due to the high unemployment rate within the West Bank
- Purpose: **Control and limit** the free movement of Palestinians

“Between 4am and 6am every day, the checkpoints begin to fill up as thousands of people squeeze into cage-like lanes. Many arrive at 3am or earlier to secure their place in line, more than an hour prior to the opening of the checkpoint. Restricted by a time limit on their Israeli permits, they must make their journey back home after the day’s end. Some, however, decide to take the risk of sleeping at their workplaces due to the conditions at the checkpoints. In turn, they only see their families on the weekend.”

Harassment & intimidation at the checkpoint

7:30am

Ready for school

Ahmad is now awake, getting ready to go to school.

It's harvesting season. Ahmad's Baba leaves to go for work on the olive farm owned by his family for over 400 years - he is one of the lucky ones. Last year, Israeli settlers burnt down Baba's best friend's olive tree farm.

The illegal wall has divided Baba's house and his farm. He is unsure of whether the Israeli authorities will open the gates of the wall to allow him to go to his farm or not.

The illegal wall blocking

Baba...

- The wall is 8m high – with watchtowers and a “buffer zone” 30-100 meters wide for electric fences, trenches, cameras, sensors, and military patrols
- 85% of the wall is in the West Bank, annexing 46% of the land
- Wall surrounds Palestinian farmland: Israel has created agricultural “gates” in the Wall; Palestinians are beaten, detained, shot at and humiliated
- The wall blocks Palestinians from visiting al-Masjid al-Aqsa

ISRAEL/PALESTINE

Separation wall

Since 2002, Israel has been constructing a wall that stretches for more than **700 kilometres**. **85 percent of the wall falls within the West Bank** rather than running along the internationally recognised 1967 boundary, known as the Green Line.

Yearning to visit

Ahmad has reached school safely Alhamdulillah. He always feels tense on the way to school as he passes by the spot where his neighbour Ali was shot last year by an Israeli sniper.

His school is poorly built, underfunded and crowded. Today, he is learning about the virtues & history of Jerusalem and al-Masjid al-Aqsa. It is only 1.5 hours away from him but he has never been there as Israel won't allow him. Ahmad yearns to visit the blessed mosque, and pray in the place where thousands of Prophets prayed.

**What are the virtues
of al-Masjid al-Aqsa?**

Aerial view of al-Masjid al-Aqsa

The Blessed Land...

- Which Allah Himself has sanctified in the Qur'an
- On which the second Masjid on Earth was built
- Which contains the Masjid in which 1 Salah = 500 Salahs
- From which the Messenger ﷺ was taken up to the Heavens to meet Allah
- In which the Messenger ﷺ lead ALL the Prophets in Prayer
- Which was the the 1st Qiblah
- Over which the Angels of Allah are spreading their wings over until today

Jerusalem & al-Masjid al-Aqsa

- Jerusalem (Capital of Palestine) was separated into East & West in 1948
- West was for Israel and East was for Palestine
- 1967 – Israel began occupying the East too (al-Masjid al-Aqsa)
- Settlements built around the East of Jerusalem to partition it from the West Bank - **229,000 illegal Israeli settlers live in East Jerusalem**

Palestinian males (ages 12-55) living in the West Bank are not allowed to visit al-Masjid al-Aqsa.

Only 400,000 out of the 7 million Palestinians can visit al-Masjid al-Aqsa.

Al-Aqsa is our collective duty: They have defended it for us

- Al-Masjid al-Aqsa has been under illegal Israeli occupation since 1967
- Some Israeli groups wish to build a Jewish temple in the place of al-Aqsa
- The Israeli government encourage these groups to visit al-Aqsa, accompanied by Israeli Occupation Forces (known as **incursions**)
- The number of incursions at al-Aqsa and attacks on Palestinian worshippers have rapidly increased over the last few years

During Ramadan 2022, Palestinian worshippers at al-Aqsa were attacked 7 times in the space of 10 days. Over 250 worshippers were injured, including women, children and the elderly.

Ahmad is in the playground. He is missing his best friend, Esam.

Esam, only 13, is in an Israeli prison. He was arrested for throwing stones at the Israeli military who carried out a major attack on the Jenin Camp this July.

How many Palestinians are illegally imprisoned by Israel?

**Children Arrested

Most of the child prisoners were charged with “throwing stones”, a crime punishable under military law by up to 20 years in prison.

4,450

**Palestinian Political

Returning to rubble

Ahmad has just received a WhatsApp message from his older sister Arwa in Hebron, sending a picture of their house which has been reduced to rubble by an Israeli digger.

They were only given a one-hour notice to collect all their belongings and leave.

Settlers & demolitions: daylight robbery

Since 1967, Israeli authorities have **demolished over 30,000** Palestinian homes in the occupied territory. Palestinian homes are demolished to make space for settlers who come from all over the world.

Nearly **750,000 Israelis** live in 300 illegal settlements in the occupied West Bank.

Ahmad calls Imad

Ahmad is video calling his cousin Imad, but it seems like he isn't back from work yet.

Ahmad has never seen Imad in person, even though they only live 1.5 hours apart.

Meet Imad Albarghouthi.

Aged 12, he lives in the largest concentration camp known in history (Gaza).

Gaza: an open-air prison

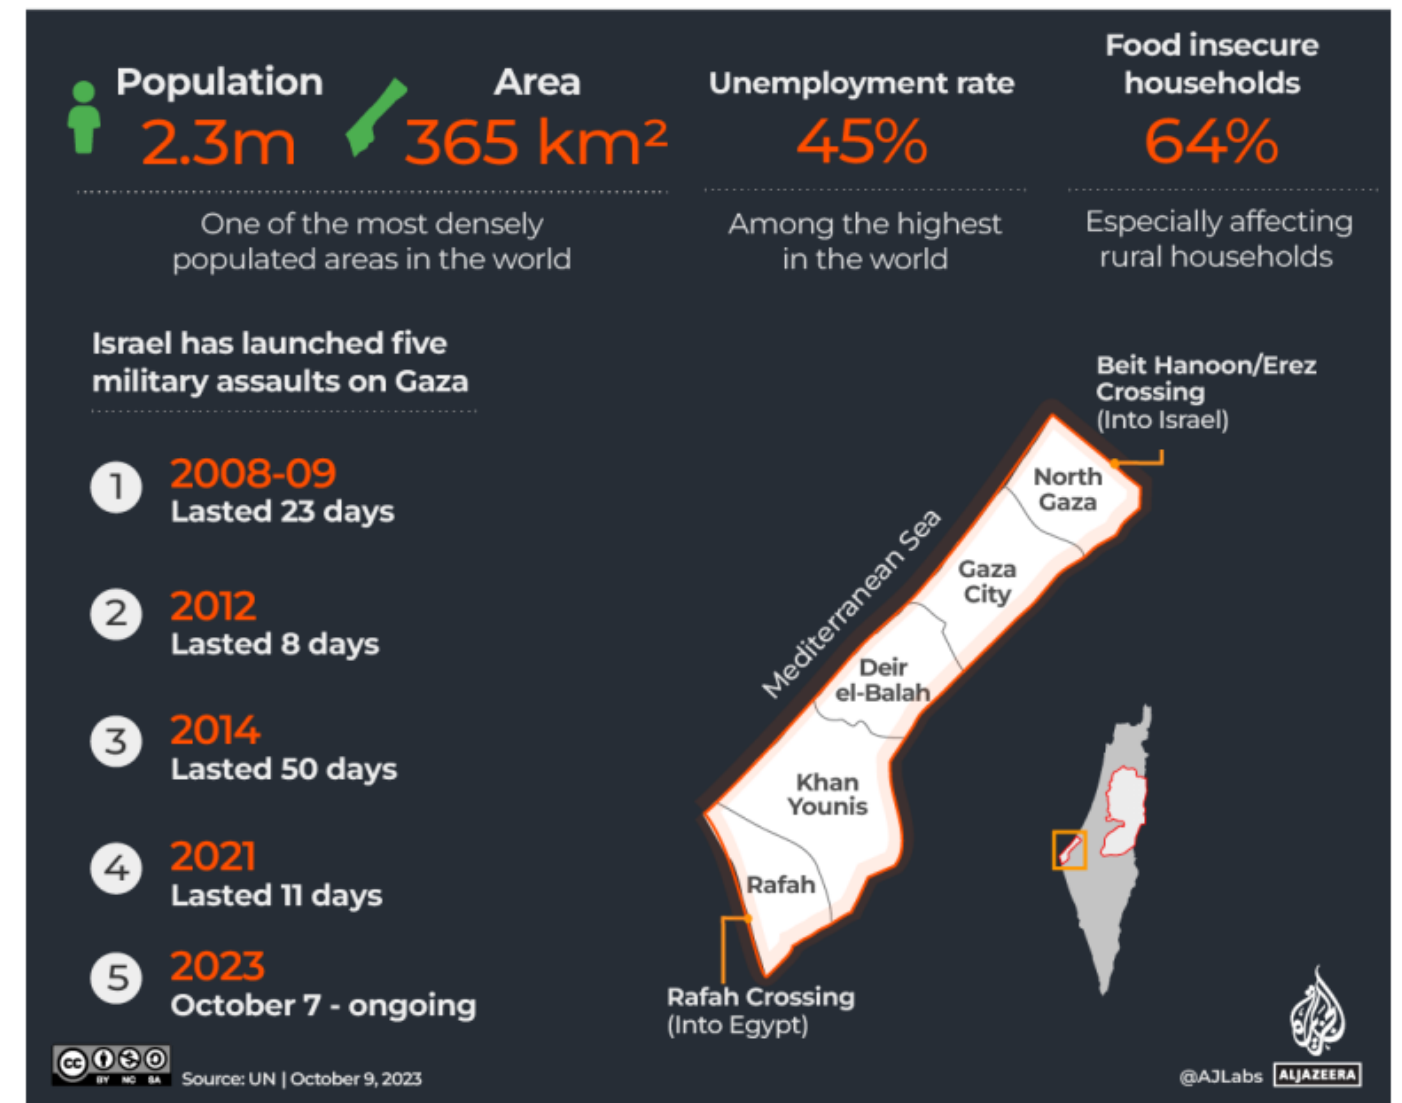

- Israel's land, air and sea blockade has trapped more than 2.3 million people inside the Gaza Strip since 2007
- 80% of Gazans are dependent on humanitarian aid to survive
- Gazans face electrical blackouts for 12–16 hours every day
- 97% of water is not safe for consumption

The UN has declared Gaza is not fit for human habitation

Gaza: 16 years of living under blockade

Israel's land, air and sea blockade has trapped more than two million people inside the Gaza Strip since 2007. No portion of Gaza's society or economy has been left untouched.

(Al Jazeera)

7:30 pm

‘I’m exhausted!’

Imad has just come back from work. He is exhausted. He used to go to school, but since the war, he is no longer able to.

His dad was killed in the 2018 war by an Israeli bomb so now his family depend on him. His job is tough: 11-hour shifts at his uncle’s bakery.

The children

- Children make up 47% of Gaza's population, with over 800,000 having never known life without the blockade
- Children killed or permanently injured
- Orphans
- Trauma of war - depression, fear, panic attacks, suicidal thoughts, involuntary urination & bed wetting, reactive mutism
- Forced to work in dangerous jobs

Why are some of the children not able to attend school?

A deafening blast

Imad is getting ready to go to bed. It has been a long day and he is exhausted. Suddenly, the block of flats he is in begins to shake. Violently. Imad is terrified.

He keeps repeating the Shahadah.

At first, Israel gloated over what they had done. And when they realised how this could turn many against them, they had the audacity to blame the massacre on a Palestinian resistance faction who apparently 'misfired' a rocket.
